AIRFIELD EQUIPMENT & LIGHTING

## Self-Illuminated Baton

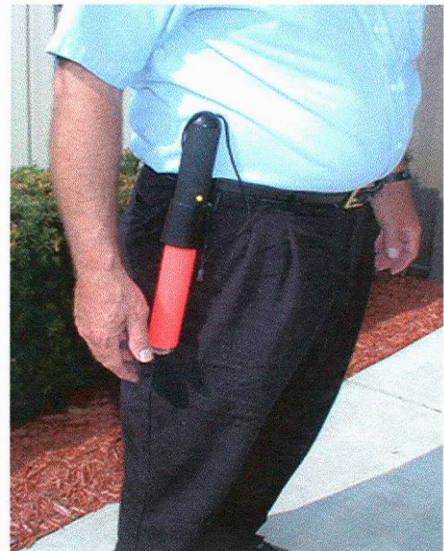

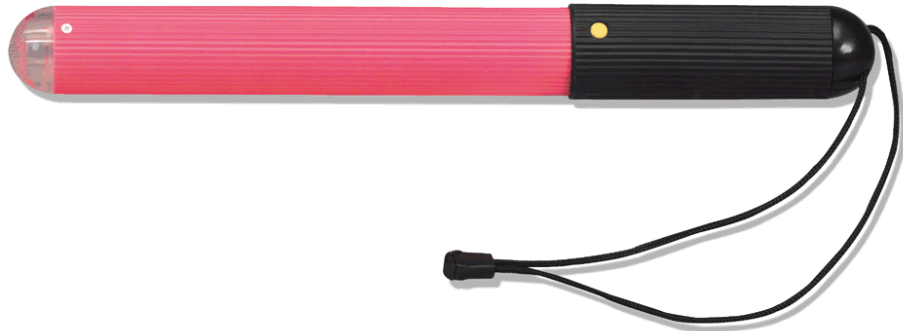

PolyBrite batons are PolyBrite International's newest innovation and are the lightest, brightest marshalling wands available! No more heavy flashlights. The PolyBrite baton weighs a

mere 6.2 ounces so you can do your job comfortably. With up to 400 hours of illumination in the flashing mode on 2 AA batteries (not included), these batons will pay for themselves in batteries alone! PolyBrite batons are ideal for directing vehicle traffic, signalling and/or marshalling aircraft.

Size: 14.5 In., 6 oz.                      Item # IB-4R

Product Features Include:

- Visible from up to one mile at night.
- Made of Lightweight shock and weather resistant plastics
- Hundreds of hours of battery life
- Red or amber illumination
- Safe - Operates on 3 Volts
- Patented polymer/LED combination
- Constant or Flashing Light

## Now Available - Waist belt Baton Holder

Waistbelt baton holders are now available to keep your Polybrite baton securely within reach. This holder attaches to your belt. The wide loop keeps the baton from slipping out when walking or running. Never leave your baton behind again.
