AIRFIELD EQUIPMENT & LIGHTING

LINLANER RETRO-REFLECTIVE POST & LINDPET CONES

LinLaner is set in a ground fixing pipe (yellow), see below. An auger is offered for cutting a correctly sized hole in turf.

LindPet is a movable barrier/marker, weighted or unweighted and can be used singly or in conjunction with horizontal barrier tubes and/or retro-reflective sleeves.

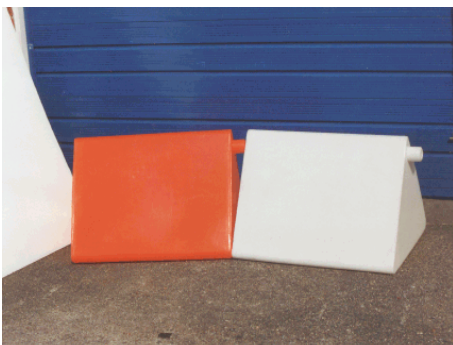

TriBox is a hollow triangular box; colour combinations are achieved by placing alternating coloured boxes successively.

Colours available: red, yellow, black, blue, white, orange (subject to availability and quantity required).

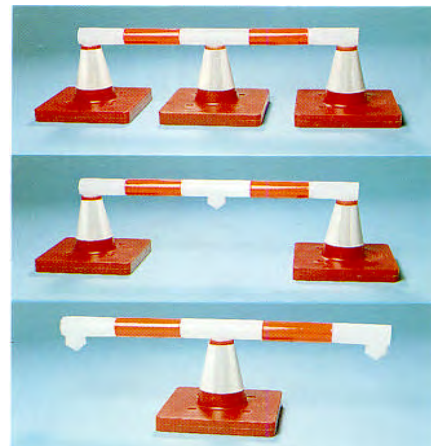

LinLaner satisfies both ICAO Annex 14 and UK CAP168.
